EXECUTIVE DIRECTOR'S REPORT:

I) ITEMS FOR DISCUSSION:
A) Administration:
1) Environmental Management System- January 2017
Chairman Brennan asked for additional explanation regarding the opportunity for reduced sludge/solids disposal costs. Mr. Kricun explained that because Synagro, the sludge drying contract operator, had not yet found alternative disposal outlets, he reached out to a company called Material Matters. (The CCMUA negotiated into their contract with Synagro, the ability to find and use other more economical disposal sources). Material Matters, a solids material distribution company, identified an opportunity for disposal at a cost that would be approximately $20/ton less than the price currently being charged by Synagro.

2) 2017 Clean Water Utility of the Future Award
Mr. Kricun noted that the National Association of Clean Water Agencies (NACWA) selected the CCMUA as the 2017 recipient of the Clean Water Utility of the Future award. The CCMUA was recognized by its peers as being the most innovative utility. The CCMUA’s Freeholder liaison, Jeffrey Nash, will be notified accordingly.

B) Engineering:

C) Legal:

D) Operations & Maintenance:

E) Finance:
   1) Voucher Payment Resolutions - Report on Emergency Payments

II) INFORMATIONAL ITEMS:

A) Administration
   1) Organizational Chart

B) Finance
   1) Collections Report for December 2016
   2) Budget Review Report for December 2016
      Commissioner MacFarlane asked for additional information regarding the December 2016 YTD totals for Solids Handling ($271,000 over budget); Administration ($343,000 over budget) and Commissioners ($27,000) to which Mr. Planamento explained that the figures for solids handling, while somewhat estimated, should be close to finalized. Regarding Administration, he explained that the overage is likely due professional fees and bank fees. Regarding Commissioners, he explained that the $27,000 is for insurance (Public Officials/Liability). Mr. Planamento advised the Board that he'd research the Administration expenses further to determine the exact reason for the overages and report back to the Board accordingly.

C) Operations & Maintenance:

PUBLIC PARTICIPATION ON PROPOSED RESOLUTIONS: NONE

Mr. Kricun explained that this matter was still under review and not yet ready for action. Therefore, a motion was made by Commissioner MacFarlane and seconded by Commissioner Cuffee to table Resolution #R-17:1-1 formerly presented and tabled in October 2016 – #R-16:10-130 and again in December 2016, #R-16:12-147, authorizing a Contingency Agreement between Branch Village Urban Renewal, LC and the Camden County Municipal Utilities Authority Pursuant to N.J.S.A. 40:14B-22.3. A motion was made by Commissioner MacFarlane and seconded by Commissioner Stokes to adopt Resolution #R-17:1-4, authorizing Change Order #1 to the CCMUA's contract with Anaergia for design and construction of a combined heat and power system for the Delaware #1 WPCF. Mr. Kricun explained that the CCMUA entered into a contract with Anaergia to design and build a combined heat and power facility for the wastewater treatment facility. This would take the gas from the sludge produced and convert it into electricity. In addition, Anaergia is providing equipment for the sludge digestion facility that will generate the gas. The contract was awarded for approximately $18.8 million. After the design was complete, the CCMUA hired two consulting engineers to perform value engineering services on this project- Greeley & Hansen, the original designers of the main plant and AECOM, the largest consulting engineer firm in the U.S. These firms, along with CCMUA staff, had two key recommendations: 1) Tank Covers (instead of installing a membrane over the tanks which would need to be replaced every 8 years, install stainless steel tank covers which over the last longer and are less expensive over their lifetime) and 2) switch certain components of the projects from the digester project into the combined heat and power project to ensure continuity at no net cost. There being no question on the motion, a roll call vote was taken. On roll call, the Commissioners responded to their names as follows:

Commissioner Swartz asked how many elevators were located at the CCMUA to which Mr. Cornforth replied there are 5 elevators between the Administration Building and Main Plant and 18 man lifts. Commissioner Stokes noted that the low bidder was rejected. Mr. Cornforth stated that the County bids and awards the master contract, and various county agencies, like the CCMUA, can then award their own contract with the selected vendor. Mr. Watson, Solicitor for the CCMUA, added that per Assistant County Counsel (who prepared and authorized award of the master bid), the low bidder failed to provide a Certificate from a Surety Company and failed to acknowledge an addendum.
