

**New Jersey Environmental Infrastructure Financing Program  
Project No. S340-640-28**

Emergency Rehabilitation/Replacement of the CCMUA's Berlin Township Force Main, located in Berlin Township, NJ with a capital cost of \$2,933,555, was financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (Infrastructure Bank) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the Infrastructure Bank to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by preserving the conveyance of sanitary sewage flow to the CCMUA's Delaware #1 WPCF for proper treatment and disposal, for residents and businesses in Berlin Township and Camden County.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
